

Your team is losing hours every day to work **AI should be doing.**

ChiefAI embeds an experienced Chief AI Officer into your business without the \$400K hire. We find your biggest operational drag, build AI that eliminates it, and have working tools in your hands by the end of week one. Engagements run in 90-day sprints so results are real before you renew.

THE REAL COST OF A CHIEF AI OFFICER A full-time hire runs **\$250k - \$350K base**. With benefits, equity and ramp time, you're over **\$400K in year one** for one person. ChiefAI: senior AI leadership, an active build team and a proven process. **Starting at \$3,500/month.**

- WORKING SOFTWARE IN WEEK 1
- 90-DAY SPRINT MODEL
- PROVEN ROI BEFORE YOU RENEW

	ESSENTIALS	GROWTH	ENTERPRISE
Monthly investment	\$3,500	\$6,500	\$14,500
Best for	<i>Stop bleeding hours on one broken process.</i>	<i>AI running across the business, not just one corner.</i>	<i>A full AI function without hiring one.</i>
Dedicated ChiefAI Officer	✓	✓	✓
Strategy calls	Monthly 1hr	Monthly 1hr	Bi-weekly + on-demand
AI Assessment	Time & Workflow Audit	Survey + team interviews	Full audit + interviews
AI roadmap	Built in month one	Quarterly refresh	Maintained + competitive intel
Executive coaching	—	—	4 sessions/qtr

AI Training	Tool training	Tool training + team workshops	Leadership + role-based
AI Task Force Facilitation	—	✓	✓
Dedicated Chat Support	—	✓	Priority
Quarterly AI briefing	—	✓	✓
AI usage policy	✓	✓	✓

The Math **Essentials costs \$42,000/year.** One role's reporting automated, one rep's outreach streamlined and one backfill avoided can return \$80,000-\$150,000 in reallocated capacity and preserved revenue. That's not a cost. That's a growth lever.

Need something custom? ATS, CRM and ERP integrations. Custom applications. Embedded automations. We scope it. You approve it. We build it. Priced separately on top of your subscription.

Why 90 Days? Real results take more than a kickoff call. Our sprint model means deployed tools, trained teams and measurable ROI before the engagement renews. Month-to-month after that. We'd rather earn your continued business than lock you in.

**AI tools scope: Custom GPTs, Claude Projects, agent workflows, prompt libraries, and light automations. Deeper integrations and custom applications are scoped as Custom Projects.*
